Dear Trix,

In finally having an opportunity to address a note to you regarding your September 27, 2002 performance on our campus at Fresno State, let me thank you from the bottom of my heart. We were absolutely thrilled to have had you on our campus, pouring out your creativity and energy on the children in attendance that day.

The local teachers, faculty on campus and I were floored by the impact of your performance on the children. I want to compliment you for the ingenious way that you involved them in your show. You created a three-dimensional amusement park, an alter-reality; a separate world for them to participate in. They entered a safe environment where creativity is tried, and practiced. And through this creative world, we saw our children flourish. They stretched their creative muscles, and awakened new facets of their intellects. Bravo. You are an inspiration to our teachers; a positive pied piper as one who entreated our children to dream, while leading them in a safe place: home. Thank you.

Warmly,

Paul
