

Why do I love Hot Cocoa so much?

When I was just two years old, Mom and Dad warmed my fall and winter days with hot cocoa. Since then, I've never been without it! Hot cocoa carried me through my college years, melting away my troubles and bad moods. Even my doctor gave hot cocoa a good report. Apparently, for me, **hot cocoa is a must!**

Hershey's chocolate, milk and vanilla syrup - mmm, my favorite! I also love trying different types of hot cocoa, and I always have "cocoa-to-go" ready in my bag. My friends tease me, telling me that I'm hooked on the stuff. It's true! Every day, the first thing on my mind is drinking hot cocoa. I always know I'll get at least one thing on my "To do" list done, because the first daily item is "**Drink hot cocoa.**"

My business partner prefers coffee. I don't drink coffee. If you're a coffee-lover, I'm sure that you enjoy your coffee just like I enjoy my hot cocoa. In my shop, I've decided to put up a shelf for **Trix's Hot Cocoa Collections**. It's fun to hunt for new flavors to offer at the shop, and to look for cocoa candles, lotions, and other chocolate delights. Come check out my Cocoa Collections! **A big hot cocoa toast to all of you!**
