VISUALIZE THIS: Drawing in Space with ASL Classifiers

As a native English speaker you work within a linear language, but ASL uses space and movement through classifiers to show a visual picture. When using Classifiers, are you able to clearly portray the English message into ASL? Do you know how to clearly show a car accident, a Lasik eye surgery, or a gymnast going through their routines? This workshop provides participants with an overview of using Classifiers, by focusing on what they mean, when to use them and how they are used. Participants will explore various classifiers to express a visual picture breaking away from English words to translate ideas visually. This workshop strongly focuses on ASL storytelling, ASL performing, and ideas on how to use the appropriate handshape to show a clearer picture of the context involved.

This workshop will also provide hands-on experiences & skill building activities needed for appropriate classifier use applied to complex descriptions and images. Complicated & confusing pictures, eye gaze, role shifting, spatial referencing and appropriate use of classifiers in storytelling will also be presented. Emphasis is placed on developing the ability to think in pictures as a way to improve expressive and receptive communication skills.

April 17, 2010

Saturday @ 9 am - 4 pm

At LaQuinta Inn & Suite Meeting Room
191 Crescent Commons Drive
Cary, NC 27518

Registration Fee:

\$65 per participant, postmarked by April 5, 2010
