♥ **English Idioms: PSST...How Do You Interpret That?**

Fire up your creativity and learn how to interpret idioms in American Sign Language! This workshop will guide participants in expressing idiomatic concepts across languages. Idioms breathe life into language. Come and join us as we master idioms! (0.4 RID CEUs available)

February 9, 2018, Friday 5pm – 9 pm

♥ **Interpreting Biology, Health, and Human Development Information (NEW!)**

Interpreting in classes such as anatomy, biology, health, child development and parenting can certainly be a challenge! Developing ASL visualization skills within these topics, this workshop will provide helpful interpreting demonstrations and practice exercises. Find out how scientific concepts expressed in English may be clarified visually and communicated in a timely and efficient manner. Interpreters can apply these visualization skills to many topics, bringing scientific discussions to life in ASL! (0.4 RID CEUs)

February 10, 2018 Saturday 8am – 5 pm

♥ **ENGLISH EQUIVALENTS: Whoa! Train Zoom Gone. Did You See What She Signed? What did she mean by that and how can I say it in English?**

English Equivalents help the student take signs that do not have just one translation in English and help the participant become aware of idiomatic English translations along with some technical vocabulary associated with particular signs. English Equivalents in ASL will help you confidently continue the flow of information exchange from ASL to English and from English to ASL.

My workshops benefit participants at all levels. Countless advanced interpreters have let me know that they enjoyed learning updated/new signs that they haven't seen before, such as regional accents. They also loved it when I explained how to sign messages into ASL, rather than just signing in English word by word. Interpreters appreciate that my workshops are excellent for review as well as for discovering new things that apply within the professional work environment. Students also mentioned that my workshops helped them to understand how to approach their own projects, research, and practice more effectively.
