

Trix Bruce is coming BACK!

July 14, 2017 ~ Friday 8 am – 5 pm

♥*Trix's Discoveries: Evolving from Old to New Signs (NEW!)*

This workshop will give you plenty of examples of old, obsolete signs that you may want to eliminate from your repertoire, and new, modern-day representations. Through the years, Trix has spent a vast amount of time mentoring interpreters. She noticed that a lot of interpreters continue to use outdated signs without thinking about changes and signs that represent what we actually use right now; Trix has put together a fascinating workshop offering updated signs.

If we use outdated signs, how do we expect Deaf students to grasp the ideas we are trying to convey? We will have demonstrations showing outdated signs and current signs. This information has been gleaned from various schools. There will be several opportunities for hands-on practice. We'll share some sign bloopers that easily cause misunderstanding, and we'll work on how to target the true meaning of certain expressions. It is amazing how so many signs have evolved! Take advantage of this opportunity to nostalgically remember old-time signing and to become more aware of present-day signs. (0.75 RID CEUs available ***CDE 7.5 Skill Based Continuing Education Contact Hours will be awarded***)

July 15, 2017 ~ Saturday 8 am – 5 pm

♥*Interpreting Biology, Health, and Human Development Information (NEW!)*

Interpreting in classes such as anatomy, biology, health, child development and parenting can certainly be a challenge! Developing ASL visualization skills within these topics, this workshop will provide helpful interpreting demonstrations and practice exercises. Find out how scientific concepts expressed in English may be clarified visually and communicated in a timely and efficient manner. Interpreters can apply these visualization skills to many topics, bringing scientific discussions to life in ASL! (0.75 RID CEUs available ***CDE 7.5 Skill Based Continuing Education Contact Hours will be awarded***)

My workshops benefit participants at all levels. Countless advanced interpreters have let me know that they enjoyed learning updated/new signs that they haven't seen before, such as regional accents. They also loved it when I explained how to sign messages into ASL, rather than just signing in English word by word. Interpreters appreciate that my workshops are excellent for review as well as for discovering new things that apply within the professional work environment. Students also mentioned that my workshops helped them to understand how to approach their own projects, research, and practice more effectively.
