

Stage Set-Up for Show

Would you please kindly set up the following items to help things run smoothly? Thank you so much!

- 1) Stage/platform
- 2) White screen or tripod/white screen with pull-down control
- 3) Extension cords
- 4) LCD projector
- 5) VGA cable and sound (Audio) device
- 6) Microphone (for interpreters, just in case)
- 5) Table at entrance area (for setting up my autographed photos & display)
- 6) Water bottle

I am bringing my Mac Book and Mac adaptor to hook up with the LCD projector. (I will also bring my USB in case my Mac Book does not connect effectively with your LCD projector.)

Volunteers are welcome to help me out, and are much appreciated!

- 1) Pick up/Drop off at hotel; sometimes stop by Starbucks, if needed
- 2) Take photos with my camera
- 3) Make visual signs (directional signage) for people to find us!
